Skills

- C++, Java, C#
- JavaScript, TypeScript, HTML5, CSS3
- React, Tailwind CSS, Bootstrap
- Node.js, Express.js, Socket.IO
- MySQL, PostgreSQL, MongoDB
- Prisma ORM, Mongoose
- Git, GitHub, Postman, Vite
- Agile & Scrum Methodologies

Education

BSc in Computer Science & Engineering, 2025
American International University - Bangladesh (AIUB)
CGPA: 3.26 out of 4

Higher Secondary Certificate, 2019
Milestone College
GPA: 5 out of 5

Secondary School Certificate, 2017
Shahajuddin Sarker Model School & College
GPA: 5 out of 5

Summary

Computer Science graduate specializing in Software Engineering with a strong foundation in Backend and Full-Stack development. Proficient in the MERN stack, PostgreSQL, Prisma, and Socket.IO. Adept at problem-solving and writing clean, scalable code.

Professional Experience

Junior Backend Developer, ScaleUp IT Ltd

12/2025 – Present | Dhaka, Bangladesh

- Architected and delivered RESTful APIs and scalable MongoDB schemas for new production projects.
- Engineered backend services using Express.js and Socket.IO to enable real-time features, focusing on reliability and scalability.
- Collaborated with frontend teams to debug issues, align API contracts, and maintain Postman API documentation.

Projects

Mental Health Tracker

Live | GitHub

Tech Stack: React.js, Tailwind CSS, React Router, Vite

- Built an interactive app featuring mood tracking and journaling, designing a responsive UI with dark mode and validation.
- Optimized state management and client-side routing to ensure a seamless and fast user experience.

Hire Me (Job Portal Backend)

GitHub

Tech Stack: TypeScript, Express.js, MongoDB, Mongoose, Zod

- Developed a type-safe backend using TypeScript and Express.js, enforcing strict input validation and data consistency with Zod.
- Implemented advanced data handling, including search, sorting, filtering, and pagination for job listings and applications.
- Integrated Role-Based Access Control (RBAC) and secure file management (Multer) to handle CV uploads.

Real-Time Chat Application

Frontend (GitHub) | Backend (GitHub)

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, Socket.IO

- Built real-time messaging architecture using Socket.IO for instant communication and persistent chat history.
- Enabled message editing and deletion with dynamic, synchronized updates across all active sessions.

Ecommerce Project API

GitHub

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, JWT

- Designed an MVC-based RESTful API managing products, carts, wishlists, and user profiles.
- Secured the application with JWT-based authentication.

Core Competencies

- Problem solving, critical thinking & adaptability.
- Team collaboration, effective communication & leadership.
- Proven time management & organizational skills.
- Passionate about technology, innovation & continuous learning.
